NOTES

* The column represents the public media service area expanded or preserved by each transaction. Population coverage within the 60dBu (1.0mV/m) FCC contour. The 60dBu coverage area is considered to be the primary coverage area for a non-commercial FM station and is the contour that is protected from interference by the FCC. Population predictions based upon V-Soft Communications-Probe 3 with Longley-Rice propagation model for the FMs (at 9.1m receiver height above ground) and FCC contour daytime coverage for the AMs. 2000 Census Data for sales before 2004; 2004 Census estimates for sales between 2003 and 2007; 2007 US Census estimates for sales between 2008 and 2010; 2010 US Census estimates for sales between 2011 and 2013; 2012 US Census estimates for sales occurring in 2014 and 2014 US Census estimates for sales occurring in 2015 and on.

Note A Pending FCC approval.

Note B Including: WVXU-FM/Cincinnati, Ohio; WVXC-FM/Chillicothe, Ohio; WVXR-FM/Richmond, Ind.; WVXH-FM/Harrison, Mich.; WVXW-FM/West Union, Ohio; WVXA-FM/Rogers City, Mich.; WVXM-FM/Manistee, Mich.

Note C Transaction size based on net present value of cash flows associated with the purchase price and sellers note, discounted at 3%.

Note D Transaction amount reflects total amount committed.

Note E Loan paid in full.

Note F Transaction total amount includes \$550,000 in non-cash consideration. Primary coverage represents potential coverage of the proposed upgraded signal for KTBG-FM.

Note G Transaction total amount includes \$617,000 in promotional underwriting announcements.

Note H Transaction total amount includes \$100,000 in promotional underwriting announcements.
